

# Techknow's 15" OCS 150

**W** An Analytics Driven Digital Merchandising Platform

**TEMS** is a cloud based application that allows the marketing team to remotely manage all campaigns on the OCS. This includes running and analyzing effectiveness of promotions by daypart, displaying pictures of suggestive sell items thus increasing your average ticket. In addition TEMS pushes community messaging or consumer alerts to your OCS.

**TOPS** cloud based applications enable the restaurant to remotely monitor the operational status of each device thus improving help desk efficiency. Track and monitor vehicle detection box or loop issues. Be notified upon the loss of data or when wiring problems are identified.

**TEMS & TOPS** can be managed from any mobile device with internet access.

## Innovative Order Confirmations Systems and Cloud based applications from the LEADER in the QSR industry.

The OCS 150 was designed to improve order accuracy and speed of service, reduce operating expense and employee theft, influence point of purchase decisions, and enhance customer satisfaction. The OCS150 coupled with Techknow's TEMS and TOPS software provide unparalleled service and support.

The 15" OCS was designed to fit into most vendors / suppliers pedestals with minor field adjustments. Techknow's pedestal is designed to fit a 15" OCS 150 or OCS300 17" OCS in portrait or landscape mode. Change the color of the front panel to promote your brand.

# W Cutting Edge Technology

The OCS 150

The OCS150 utilizes Linux OS for open architecture and security.

Our unique cooling technology has made Techknow one of the coolest operating units in the industry.

Techknow's order confirmation boards are the brightest in the industry. We have developed interfaces with over 95% of all POS systems and many back office systems.

Techknow's pedestal was designed with an interchangeable front panel that enables you to change colors without replacing the entire pedestal.

Techknow Installation and Field Service team provides national coverage. We can be at any location within four hours.

## INPUT POWER

Voltage	100/264 VAC (auto-sensing) 0.60A
Frequency	50/60Hz
Power	42 Watts

## SPECIFICATIONS

Sealed Display Operating Temp	-40°C to +60°C ambient
Display Type	TFT- LCD
Size	15in
Resolution	1024 x 768
Color Depth	16.2M Colors
Brightness	1500 Nits
Humidity	5% to 90% non-condensing
Viewing Angle	140 Vertical and 160 Horizontal
MTBF	62,000 Hours
Response Time	<=8ms
Contrast Ratio	700:01:00
Remote Monitoring	Yes via TOPS (Power, Temperature, Data)
Automatic Dimming Backlight optional	
Connectivity	Ethernet or Serial
Standard Three Year Warranty	Extended Warranty optional
Network	10/100 10BT/10B2 Ethernet

## DIMENSIONS

OCS Display Dimensions	16.71" x 11.99" x 5.81"
Metal Pedestal Dimensions	60 ¾" x 11 ½" x 22 ¾"

## SHIP WEIGHT

Screen	25 lbs
Screen and Metal Pedestal	97 lbs
