## Webstats Cloud Based Reporting Software

In the quick service industry, time can cost you money and result in a loss of business. Webstats enable members of the management team to retrieve statistics collected by your system. These statistics can help you:

- Increase speed of service and enhance customer satisfaction
- Set sales and drive-thru goals
- Deter employee theft
- Identify and reward productive employees
- Improve your drive-thru operations
- Captures up to 20 different variables
